

## **I KNOW**

### **VERSE 1**

Baby please wait around for the rainbow,  
Rain just stop by the end of night..  
Don't throw our love by the window just because we fight !!  
Girl it's all on your face, i can see it,  
In my heart feels there's someone else,  
Even though i don't wanna believe it,  
You're only thinking about yourself...

### **CHORUS**

I know what you're going through  
Please stay i wanna be with you  
I know what you're gonna say  
Don't take my love away

### **VERSE 2**

After all this time together  
Girl i never thought we'd apart  
I thought that we would be forever  
I wish i knew this from the start..  
Now that i see everything is going away,  
wish there was something i could say,  
To you, to make you see that everything you're doing,  
Baby i know !!

### **CHORUS**

### **BRIDGE**

I know what you're going through  
Please stay i wanna be with you  
I know what you're gonna say  
Don't take my love away

### **CHORUS**

*Laynon*
